ABOUT US

A strategic partner for organisations seeking real impact.

Maron Consultorias is a Mozambican firm dedicated to generating evidence, strengthening institutions and delivering solutions to the country's social, economic and environmental challenges.

Our value proposition

We combine scientific methods, field experience and a practical understanding of the national context to support decisions in education, health, energy, environment, oil & gas, foreign trade, finance and community development.

360º

Research, implementation and evaluation

MZ

Solutions tailored to the national context

SDG

Focus on sustainable development

MEL

Monitoring, evaluation and learning

WHY MARON

We turn data into decisions and knowledge into development.

We work with methodological rigour, professional ethics, local knowledge and a focus on measurable results.

Local Knowledge

We understand Mozambique's social, economic, territorial and institutional reality.

Methodological Rigour

Scientific methods, data triangulation and quality control at every stage.

Multidisciplinary Team

Experts in research, MEL, community development, energy, environment, trade and finance.

Results-Driven

Practical, actionable recommendations aligned with our clients' objectives.
